Keynote sets the stage for an impressive presentation. A simple, intuitive interface puts important tools front and center, so everyone on your team can easily add beautiful charts, edit photos, and incorporate cinematic effects. And Rehearse Mode lets you practice on the go, with the current or next slide, notes, and clock — all in one view.

The PowerPoint vs Keynote debate is probably going to continue into the foreseeable future. While I personally think PowerPoint trumps Keynote in so many ways, Keynote is still a powerful presentation software in its own right. Keynote is obviously an app that's made exclusively for Apple users. But even so, it's not for all Apple users.
