The BER Building Cost Index (BCI) is a measure of the percentage change in average building costs in South Africa. It is based on an analysis of the tariffs (rates) in accepted tenders supplied by quantity surveyors (QS). Click here for more information on how the BER Building Cost Index is compiled. Subscribers to the BER BCI information service will receive quarterly reports which contain:

Building Cost Index

Construction Cost Guide Our construction cost guide sets out typical building costs prepared from our experience and cost database. The cost ranges are representative of standard specifications and should be used as a guidance only. These costs exclude FF&E, siteworks, VAT, professional fees, future inflation and other developer costs etc.
