### Core Tools Key Terms | AIAG

Core quality tools have become one of the foundations for implementation and maintenance of any QMS (Quality Management System) based on IATF 16949. Together with automotive manufacturers, AIAG (Automotive Industry Action Group) developed this set of methodologies and techniques to enhance the effectiveness of the IATF 16949-based QMS, provide high-quality products, produce the required quantities, and deliver on time.

### IATF 16949 Five core tools - What are they?

The Core Tools Forms solution, named AIAG Core Tools Software 2.0, will be developed from direct engagement with subject matter experts from AIAG's global membership. The product is targeted for launch later this year to support the release of the new AIAG-VDA FMEA Manual.

### AIAG Announces Core Tools Forms Software Project

AIAG Core Tools Software The Core Tools are often referred to as the “building blocks of automotive quality.” There is a critical need in the industry for tools that enable suppliers to successfully execute all of these Core Tools during their new product and process development projects.
