If you're already invested in Amazon's ecosystem, its assortment of freebies are extremely convenient. As soon as you click the Buy button, the ebook will be sent to any Kindle ebook readers you own, or devices with the Kindle app installed. However, converting Kindle ebooks to other formats can be a hassle, even if they're not protected by DRM, so users of other readers are better off looking elsewhere.

### Algorithms To Live By Huffpost

ThoughtMatters is a partnership between Macmillan Publishers and Huffington Post. Talking about algorithms for human lives might seem like an odd juxtaposition. For many people, the word "algorithm" evokes the arcane and inscrutable machinations of big data, big government, and big business: increasingly part of the infrastructure of the modern ...

### Algorithms to Live By | HuffPost

Algorithms need data -- they use digital data that you give, leave or have tracked about you (willingly or not). This input into an algorithm is your digital footprint, which comes from Facebook, Twitter, text messages, email, key strokes, swipes, gestures, play lists, payment records, your routes, navigation -- indeed anything you do which is an interaction with an electronic device.

HuffPost Video We Need To Know The Algorithms The Government Uses To Make Important Decisions About Us As a society we should require that public information officers be trained so they are literate and indeed fluent in the terminology they may encounter when the public is asking for algorithms.

### algorithm - HuffPost

Algorithms are formulas, recipes, enumerations of steps in the construction of a predicted result. As noted, living organisms, including human organisms, use code-dependent algorithms such as the genetic machinery. But while, to a certain extent, living organisms are constructed according to algorithms, they are not algorithms themselves.
