ASCE MOP 79-2012 Steel Penstocks. MOP 79 provides practical, comprehensive guidance regarding the technical, economic, safety, and environmental aspects of designing and implementing steel penstocks at hydroelectric power stations.

ASCE MOP 79-2012 - Steel Penstocks

A category of steel pipes and penstocks that are supported at discrete points along their length may require special considerations (ASCE-79, 1993). These penstocks typically consist of very large-diameter steel pipes that were manufactured on site by either welding or riveting steel plates together.
