Cel Code P0089 Mazdaspeed Forums

P0089 is a diagnostic trouble code (DTC) for "Fuel Pressure Regulator 1 Performance". This can happen for multiple reasons and a mechanic needs to diagnose the specific cause for this code to be triggered in your situation. Our certified mobile mechanics can come to your home or office to perform the Check Engine Light diagnostic.

I have a 2007 Audi A4 B7 2.0T 6M/T. I keep regular maintenance on my vehicle, and this car was originally purchased with multiple CELs and it's narrowed down to this P0089. I don't have the right ross tech cable, but I did have it hooked up onto a regular OBD2, and the fuel pressure rated at (52) 761 psi. My local Audi dealer said that the rating for fuel pressure is (59 bar) 855 psi.

P0089 CEL Fuel Pressure Performance - audizine.com

After getting it all back together, I started the Nox and it was idling very rough and eventually threw a CEL and starting chugging really bad. I saw "Stablitrack" and see codes P228d, P0016, and P0089. which are for fuel pressure, cam/crank sensor alignment, and fuel pressure.

2013 Equinox: Running Rough, Codes: P228d, P0016, P0089 ...

Well started truck this morning and have the p0089 code again.. I hooked up the scan tool and drove around watching the ACT FRP and DES FRP readings on the scanner as I drove at idle the readings are evenly 37-38 with no lopeing and under throttle the readings stay even as well is when I come off throttle to a coast or stop that the readings get apart for eachother with the DES FRP dropping to ...

How to Clean your EGR Valve on your Mazdaspeed 3/6 or CX-7 ...

Two days easy driving they were great. CS Stage 1 Tune on the Accessport. Third day got a bad cut out and fuel pressure started intermittently dropping low. In neutral and slight gas went back to

normal but same thing happened multiples times. Checked all the connections, everything seems ok. No smell of gas. CEL light on with a code of P0089.
