The electrifying sequel to Arclight, which Pittacus Lore called "powerful and gripping." Those within the Arc thought that they were the last humans left after the world was destroyed—but they were wrong. There are more survivors. But there is also more to be afraid of. An edgy, realistic debut novel praised by the New York Times bestselling author of *Between Shades of Gray*, Ruta Sepetys, as “a beautiful reminder that amid our broken pieces we can truly find ourselves.” Alexi Littrell hasn't told anyone what happened to her over the summer by her backyard pool. Instead, she hides in her closet, counts the slats in the air vent, and compulsively scratches the back of her neck, trying to make the outside hurt more than the inside does—and deal with the

trauma. When Bodee Lennox—"the Kool-Aid Kid"—moves in with the Littrells after a family tragedy, Alexi discovers an unlikely friend in this quiet, awkward boy who has secrets of his own. As their friendship grows, Alexi gives him the strength to deal with his past, and Bodee helps her summon the courage to find her voice and speak up about the rape that has changed the course of her life.

And once they're thrust into this world, Elizabeth and Stephen must decide how deep they're going to go—because the answer could mean the difference between love and death. Praise for INVISIBILITY \* " Levithan and Cremer again prove themselves masters of their craft. Headlines, Harry's debut novel opens with a North Korean invasion of South Korea that leads, through a series of tragic errors and decisions, to a Russian nuclear attack on military bases in the U.S. Like techno-thriller master Tom Clancy, Harry offers a sprawling narrative that focuses on a small army of soldiers, politicians and their families, American and Russian. National Security Advisor Greg Lambert must keep and tell secrets that may lead to Armageddon; Reservist David Chandler must leave his pregnant wife in order to drive a tank; U.S. President Walter Livingston, eager for peace, must endure the ignominy of impeachment; Russian General Yuri Razov must deal with the consequences of his initial decision to launch nuclear missiles. Ground, air and submarine battles alternate with scenes of anarchy stateside as exhausted leaders are forced to make instant decisions that might

snuff out humanity forever. With a masterful grasp of military strategy and geopolitics, Harry moves his characters through nightmares of blood and death; his intricately detailed scenes of nuclear devastation are particularly horrifying. Told through a series of rapid-fire climaxes, this novel, a political and military cautionary tale of considerable power and conviction, will keep readers riveted. —Publishers Weekly
