Cisco Aironet 2600 Series - Configuration Guides - Cisco

To reset the AP to the default factory-shipped configuration, keep the mode button pressed for less than 20 seconds. The AP configuration files are cleared. This resets all configuration settings to factory defaults, including passwords, encryption keys, the IP address, and the SSID. However, the regulatory domain provisioning is not reset.

Hi guys, Currently, I just bought Aironet 2700 (AIR-CAP2702I-A-K9). At that time, I really don't know that this aironet use controller based, and my goal is just to use it normally as Access point without using Controller based. So in this case, There is a way to convert this device controller based...
