Completely updated and revised to include the 2005 guidelines for cardiovascular resuscitation (CPR) and emergency cardiovascular care (ECC), CPR and AED, Fifth Edition integrates the training of CPR and AED into one simple program. This program teaches basic life support and addresses breathing and cardiac emergencies in caring for adults, children, and infants. It is also designed to facilitate the efficient training, testing, and retesting in the use of automated external defibrillators (AEDs).

There are two things you can always count on in medical school: endless studying and exams. The USMLE Step 1, in particular, is one of the most stressful and difficult exams you will take in your medical school career. Your performance on this exam will essentially set the tone for your success, or failure, in the residency match process. The USMLE is a three-step programme. The three steps of USMLE 2019 are Step1, Step 2- Clinical Knowledge (CK) and Clinical Science (CS) and Step 3. The initial steps, Steps 1 and 2, are taken when the student is in medical school and step 3 is taken after graduation. Aspirants have to apply based on their location. This paperback aims to help you recover all your knowledge about Pharmacology before taking a real test and make your journey towards passing your exam.

Topics covered in 'First Aid, CPR, and AED Standard' include current CPR and ECC guidelines, core information for first aiders, explanations and visual summaries of important skills, decision-making processes, and appropriate

procedures.
