*BASF introduces new additive solutions for mechanical plastics recycling*

The cooperation is focused on cathode active materials and battery recycling The partnership supports both companies' commitment to global carbon ...

*CATL and BASF have signed a framework agreement to accelerate the achievement of global carbon neutrality goals*

BASF and CATL have announced a strategic partnership in the field of battery materials solutions. The cooperation focuses on active cathode materials and battery recycling while supporting CATL's ...

*BASF and CATL align battery material & recycling goals*

The collaboration aims at developing a sustainable battery value chain, in support of CATL's localization in Europe and contributes to achieving both companies' global carbon neutrality goals. CATL is ...

*CATL and BASF partner to accelerate the achievement of global carbon neutrality goals*

BASF Canada Agricultural Solutions has received registration from Health Canada's Pest Management Regulatory Agency (PMRA) for Veltyma Fungicide. Veltyma contains the unique active ingredient ...

*BASF receives registration for Veltyma fungicide with new active ingredient Revysol*

Germany-based BASF has developed innovative solutions to extend the life of plastics and reduce plastic waste for a zero-waste future.

*BASF innovation to make plastics last longer and reduce plastic waste*

Palatinate, Germany, 2021/09/17 - BASF's Coatings division, a leading global supplier of premium-quality, durable and sustainable refinish coatings, is using a broad range of hardeners, including ...

*BASF's Coatings Division Employs Covestro's Ultra Line of Coating Hardeners*

Industry giant BASF joins task force for sustainable polymers . World's largest chemical company joins Royal Society of Chemistry initiative to make better use of unrecovered polymers in liquid formul ...

*Industry giant BASF joins task force for sustainable polymers*

Aimed at developing a sustainable battery value chain to support CATL's localization in Europe, the collaboration will support both companies' commitment to global carbon neutrality. Through its ...

*CATL to partner with BASF on battery materials*

BrightSpec announced today the start of operation of a broadband Molecular Rotational Resonance spectrometer at BASF's research center in Ludwigshafen, Germany.

*BASF Adopts BrightSpec's Broadband MRR Technology for Structural Elucidation*

The additives can help increase the percentage of recycled content used in rigid, flexible, and molding applications.

*BASF Debuts IrgaCycle Additives to Improve Properties of Mechanically Recycled Plastics*

German chemical company BASF and Chinese battery giant CATL have concluded a strategic partnership agreement on battery materials s ...

*BASF, CATL sign partnership to create sustainable battery value chain*

China's leading battery maker, Contemporary Amperex Technology Co Ltd, has signed a framework agreement with German chemical giant BASF on battery materials solutions, including cathode active ...

*CATL signs battery framework agreement with BASF*

BASF SE (BASF) and Contemporary Amperex Technology Co., Limited (CATL) announced a strategic partnership on battery materials solutions, including cathode active materials (CAM) and battery recycling.

*BASF and CATL partner with a focus on cathode active materials and battery recycling*

Contemporary Amperex Technology Co Ltd CATL China largest automotive lithium-ion battery maker announced on Thursday a frame ...

*Chinese battery giant to partner with BASF on battery materials*

September 16, 2021 — iPoint and chemical company BASF are collaborating to offer a software for the standardized calculation of product-related CO<sub>2</sub> emissions. Chemical and process companies can now ...

*Chemical Product Carbon Footprints: BASF And iPoint Join Forces*

Chinese energy technology company Contemporary Amperex Technology Co., Limited or CATL announced Thursday a strategic partnership with BASF SE (BFA.L, BASFY.PK) on battery materials solutions, ...

*China's CATL, BASF Sign Partnership On Cathode Active Materials, Battery Recycling*

Earlier in the year, XYZprinting and BASF Forward AM established a successful partnership, now the cooperation is realized across all 3D printing portfolios. Francois Minec, Managing Director, BASF 3D ...

*XYZprinting Sales Director, John Calhoun, to introduce extended strategic alliance with BASF Forward AM and more industrial materials*

The partnership supports both companies' commitment to global carbon neutrality and CATL's localization strategy in Europe. The collaboration aims at developing a sustainable battery value chain, in ...

No doubt: A perfect coating has to look brilliant! But other properties of coatings are also most important. Coatings have to be durable, tough and easily applicable. Additives are the key to success in achieving these characteristics, even though the amounts used in coating formulations are small. It is not trivial at all to select the best additives. In practice, many series of tests are often necessary, and the results do not explain, why a certain additive improves the quality of a coating and another one impairs the coating. This book is dedicated to developers and applicants of coatings working in research or production, and it is aimed at providing a manual for their daily work. It will answer the following questions: How do the most important groups of additives act? Which effects can be achieved by their addition? Scientific theories are linked to practical applications. Emphasis is put on the optical aspects that are most important for the applications in practice. This book is a milestone in quality assurance in the complete field of coatings!

The Business Year: Morocco 2020 is a portrait of the Moroccan economy as seen through the eyes of its economic decision makers. Research for this publication was carried out in a dynamic economic and political context, including a government reshuffle in October 2019, the conclusion of the First Industrial Acceleration plan, the new foundations for the 2020 Finance Bill, and the onset of the COVID-19 pandemic. This 120-page publication aims to provide a platform for the country's decision makers at a time of global uncertainty and act as a guide for investors looking seriously at the North African economy.

This publication gives a global overview of the achievements of the Global Compact. It offers proactive and in-depth information on key sustainability issues to stakeholders and promotes unique and comprehensive knowledge exchange and learning in the spirit of the Global Compact principles. It helps to advance transparency, promotes the sharing of best-practices, and gives a strong voice to the regional and global actors that are at the heart of the initiative. It includes good practice examples of corporate participants and showcases different approaches to the implementation of the ten principles. It highlights major trends and issues, placing the activities of Global Compact participants in a broader context.

International Business is a well-established research field, in which regionalisation has recently gained significant prominence. Europe comprises marketplaces characterised by unique patterns of highly advanced economic integration. No other marketplace in the world has progressed to the same levels of harmonisation across sovereign countries and economies. European Business is a subject in its own right with its own research momentum. Contemporary research evidences that firms view Europe as a challenging, mostly – yet not entirely – mature market location. Yet this location, often seen from a multi-country perspective, is subject to complexities revealing strategic corporate strengths and weaknesses. Theory, concepts and models known from International Business hence often vary in their applicability and relevance in this business environment. This comprehensive reference volume brings together a global team of contributors to analyse and overview the key issues, themes and phenomena that affect business in Europe. With interdisciplinary perspectives, the book covers crucial themes that any European Business research needs to acknowledge, including business cultures and identity, entrepreneurship and innovation, M&A and institutional trends, European HRM, migration, climate change issues, Brexit, and more. The selection of authors, from 17 countries worldwide, reflects the international scope of this research field and its agenda. A unique resource, this book provides an essential guide to researchers, research students and scholars of business and the social sciences, as well as the informed business community.

Biobased Surfactants: Synthesis, Properties, and Applications, Second Edition, covers biosurfactant synthesis and applications and demonstrates how to reduce manufacturing and purification costs, impurities, and by-products. Fully updated, this book covers surfactants in biomedical applications, detergents, personal care, food, pharmaceuticals, cosmetics, and nanotechnology. It reflects on the latest developments in biobased surfactant science and provides case scenarios to guide readers in efficient and effective biobased surfactant application, along with strategies for research into new applications. This book is written from a biorefinery-based perspective by an international team of experts and acts as

a key text for researchers and practitioners involved in the synthesis, utilization, and development of biobased surfactants. Describes new and emerging biobased surfactants and their synthesis and development Showcases an interdisciplinary approach to the topic, featuring applications to chemistry, biotechnology, biomedicine, and other areas Presents the entire lifecycle of biobased surfactants in detail

This practical, easy-to-understand book sets a path to successfully building a culture for sustainability in today's global marketplace, providing "best practice" case studies from industries and sectors including manufacturing, business-to-business, hospitality, consumer products, telecommunications, and professional services. • Never-before-published stories and lessons learned from nine successful global companies that are building cultures for sustainability • Tips from business leaders on how to create purposeful work environments that ignite employees' passion • Practical resources: on-the-ground successful programs; proven global and local best practices; top-down and bottom-up strategies and activities; and user-friendly frameworks, tools, and references that help firms at any level of sustainability build a more sustainable culture via increased employee engagement

It's starting to look as if the whirlwind of the Internet revolution might be petering out to a gentle breeze. The customer's new position of power is now a well-established fact. For the business world, Facebook and Twitter accounts, coupled with an attractive website, now rank high on most checklists for corporate success. But is that really enough? In a world where even the smallest air current can build into a powerful storm, it can obviously prove to be a mistake not to keep a constant watch on the ever-changing digitalization trend - the trend that is generating new data and networking ever more physical products all the time. How fast can an online post by a single disgruntled customer call forth hordes of angry users that can do lasting damage to a company's reputation? Could data be the key to business success in the future? Success in the Digital Age is the first-ever collection of success stories and reports of real-world experiences by 17 CEOs and leading executives from a diverse range of industries as well as leading academics.

This document brings together a set of latest data points and publicly available information relevant for Manufacturing Industry. We are very excited to share this content and believe that readers will benefit from this periodic publication immensely.
