When Jason King blew our minds with the first two CANNABIBLE books, we never imagined that the best was still to come. In CANNABIBLE 3, he's back with a whole new crop of marijuana strains, accompanied by informative and entertaining notes on their flavors, aromas, and effects. King heralds the latest achievements in overseas breeding, recommends the best bud for winding down after a stressful day, and discovers a nug that tastes uncannily like tropical Lifesavers candy. Packed with enough mouth-watering photos to induce a contact high, CANNABIBLE 3 is the perfect gift for pot aficionados and a must-have for fans of the first two volumes.

Astounded by the lack of books dedicated to the wondrous variety of his favorite plant, author Jason King set out on a four-year mission to document the world's finest cannabis. Traveling around North America, Hawaii, and Europe, he captured over 1,500 strains on film (benevolently sampling a good number as well). Here in THE CANNABIBLE, images of the best 200 varieties are included alongside engaging and informative descriptions of their aromas, flavors, effects, and origins. Study this holy writ and figure out whether Purple Haze, Magic Kush, and the "P" is da kine or da shwag; learn which strains will give you the munchies or the wobbles; discover how appropriately named are Doc Kevorkian, Black Widow, and Cat Piss; and find out which strains are good for productivity, creativity, or just sitting on the couch, staring into space. With over 400 mind-blowing, full-color photographs of the world's most beautiful nugs, this book will have you on the floor, bowing to the mighty bud-dha. • A chapter contributed by one of the world's most studious pot smokers, Rob Clarke, provides an in-depth explanation of the history of marijuana breeding. • A unique reference guide, the first of its kind.

He's baaaack! World-renowned pot connoisseur and acclaimed photographer Jason King continues his quest to share yet another outstanding collection of marijuana strains and informative, mouthwatering tasting notes. Never one to call it a day, King has been traveling the globe nonstop since his acclaimed first book was published, to bring us more of the choicest kind-and fans and aficionados alike will not be disappointed! Featuring more than 200 carefully chosen cannabis strains, as well as his signature photomicrography, THE CANNABIBLE 2 is gloriously visual and entertaining and takes the experience of referencing buds and plants to a whole new level. Find out which strain Jason considers to be the "Holy Grail," which buds will give a major jolt to the creativity circuit, and the high that's most likely to cause a

change in your plans for the day. In glorious spreads and sidebars, King also delves into such intriguing subjects as the marijuana-chocolate connection, the tolerance factor, the medical marijuana movement, and much more. A testament to his dedication to documenting the finest marijuana, THE CANNABIBLE 2 is a book you'll return to again and again. There's no doubt: The Mothership has landed! • The must-have follow-up to Jason King's best-selling book, THE CANNABIBLE-with new strains, detailed tasting notes, and more of everything that made #1 great. • A pioneer in his field, Jason King has developed a unique vocabulary to describe the tastes, aromas, and effects of marijuana. • Includes incredible photos of rare and outrageously expensive smoking paraphernalia.

S.T. Oner, a highly successful grower, chef and author of cannabis books has compiled yet another incredible strain guide featuring Cannabis Indica strains from around the globe. This is the latest book in the amazing series of strain guides exploring the world's most celebrated plant. Features genetics from over 100 different seed breeders and strains from countries such as Britain, Holland, Canada, Russia, Spain, Switzerland, Germany, Belgium, France, Afghanistan, Pakistan, India and the USA. An indispensable resource for pot enthusiasts.

Analysis of Cannabis, Volume 91, contains a wide variety of information on the analysis of cannabis and hemp, including cannabinoids, terpenes, volatile solvents and metals. Specific chapters in this new release include the Comprehensive Analytical Testing of Cannabis and Hemp, Machine Learning Methods for Inferring Chemotype Profiles in Cannabis Sativa, Recent Analytical Methodologies and Strategic Pharmacological Applications of Cannabinoids, Analysis of Cannabinoids in Plants, Marijuana Products and Biological Tissues, LC-based (UV and MS) Analysis of Cannabinoids, Testing Cannabis Samples for Heavy Metal Contamination using Microwave Assisted Digestion and ICP-MS Techniques, Applications of GC-MS Techniques for Cannabis Analysis, and much more. Contains diverse, state-of-the-art methodologies for the analyses of cannabinoids and terpenes in a variety of matrices Analyzes different cannabis and hemp-based products Provides the expertise of leading contributors from an international board of authors

The third volume in a best-selling series about marijuana plants highlights a challenging, especially potent variety and provides profiles of seed breeders and companies along with information on 100 different genetically similar strains, in a book geared toward those states and countries where marijuana cultivation is legal. Original.

Get some light-hearted guidance as a woman who never thought she would smoke pot shares her journey and offers advice for newbies just like her. This is a fun and practical guide for those of us just venturing out into the brave new world of weed. Perfect for people wanting to visit a pot shop but would like to know what to expect, or for those who haven't smoked in 30 years and want to know what has changed.

Cannabis vs. Climate Change introduces novel ecological theory, a polar shift in human values, and the most time-efficient federal protocol affording immediate access to hemp.

The place of cannabis in global drug prohibition is in crisis, opening up new directions for socially engaged cannabis research. The Routledge Handbook of Post-Prohibition Cannabis Research invites readers to explore new landscapes of cannabis research under conditions of legalization with, not after, prohibition: "post-prohibition." The chapters are organized into five multidisciplinary sections: Governance, Public Health, Markets and Society, Ecology and the Environment, and Culture and Social Change. Case studies from the United States, Uruguay, Morocco, and the United Kingdom show readers alternative ways of thinking about human–cannabis relationships that move beyond questions of legality and illegality. Representing a cross-section of cannabis scholarship, the contributors provide readers with critical perspectives on legalization that are not based upon orthodoxies of prohibition. While legalization signals a global shift in the legitimacy of cannabis research, this collection identifies openings for academics, policy makers, and the public interested in ending the drug war, as well as a way to address broader social problems evident in the age of neoliberal governance within which prohibition has been entangled.
