The Halo Chronicles: The Guardian

High school sophomore Alex Grabovski is cursed with a gift: the ability to see the goodness and evil in her fellow human beings in the form of halos--rings of light or darkness--that surround the body. Her goals in life are to keep moving, find her best friend, and to remain invisible. A new foster family and new school offer her a real chance at a normal life. But in order to stay, she must accept that her gift, the gift of the saints, has been bestowed for a purpose and confront the overwhelming darkness she fears. Then he appears, Gabriel is a Seraph, a guardian angel sent in the mortal body of a sixteen-year-old boy to protect Alex at the time in her life when she needs it the most. Although he is as old as time, Gabriel's teenage form reacts to Alex in an unexpected, unprecedented way. He falls hopelessly in love with her. When their school erupts in violence, Gabriel and Alex realize why the guardian was sent. But can they rise above human emotions to fulfill their destinies, even if it means the outcome will rip their fragile world apart?

The Whitbread Prize-winning author of Oranges Are Not the Only Fruit delivers a novel that “transports us to something like the future of our own planet” (The Washington Post Book World). On the airwaves, all the talk is of the new blue planet--pristine and habitable, like our own was sixty-five million years ago, before we took it to the edge of destruction. Off the air, Billie Cruseo and the renegade Robo sapien Spike are falling in love. Along with Captain Handsome and Pink, they're assigned to colonize the new blue planet. But when a technical maneuver intended to make it inhabitable backfires, Billie and Spike's flight to the future becomes a surprising return to the distant past--"Everything is imprinted forever with what it once was." What will happen when their story combines with the world's story? Will they--and we--ever find a safe landing place? Playful, passionate, polemical, and frequently very funny, The Stone Gods will change forever the stories we tell about the earth, about love, and about stories themselves. "Scary, beautiful, witty and wistful by turns, dipping into the known past as it explores potential futures." --The New York Times Book Review "[A book] that you don't so much read as drink in, refuse to put down, cast aside of like a hunting dog, seeking against all odds the insight that will illuminate everything, a true answer to the fix we're in." --Los Angeles Times "A vivid, cautionary tale--or, more precisely, a keen lament for our irremediably incautious species." --Ursula K. Le Guin, bestselling author of Changing Planes

Veronica doesn't think she's going crazy. But why can't anyone else see the mysterious blond boy who keeps popping up wherever she goes? When her best friend, Mackenna, invites her to spend the summer in Scotland, Veronica jumps at the opportunity to leave her complicated life behind for a few months. But the Scottish countryside holds other plans. Not only has the imaginary kilted boy followed her to Alloway, she and Mackenna uncover a strange set of rings and a very unnerving letter from Mackenna's great aunt--and when the girls test the instructions Aunt Gracie left behind, they find themselves transported to a land that defies explanation. Doon seems like a real-life fairy tale, complete with one prince who has eyes for Mackenna and another who looks suspiciously like the boy from Veronica's daydreams. But Doon has a dark underbelly as well. The two girls could have everything they've longed for... or they could end up breaking an enchantment and find themselves trapped in a world that has become a nightmare.

The only thing as infinite and expansive as the universe is humanity's unquestionable ability to make bad decisions. Humankind ventures further into the galaxy than ever before... and immediately causes an intergalactic incident. In their infinite wisdom, the crew of the exploration vessel Magellan, or as she prefers "Maggie," decides to bring the alienstructure they just found back to Earth. The only problem? The aliens are awfully fond of that structure. A planet full of bumbling, highly evolved primates has just put itself on a collision course with a far wider, and more hostile, galaxy that is stranger than anyone can possibly imagine. The first in an all-new futuristic fantasy series from Kerl Arthur--the New York Times bestselling author of the Souls of Fire novels. When the bombs that stopped the species war tore holes in the veil between this world and the next, they allowed entry to the Others--demons, wraiths, and death spirits who turned the shadows into their hunting grounds. Now, a hundred years later, humans and shifters alike live in artificially lit cities designed to keep the darkness at bay.... As a déchet--a breed of humanoid super-soldiers almost eradicated by the war--Tiger has spent her life in hiding. But when she risks her life to save a little girl on the outskirts of Central City, she discovers that the child is one of many abducted in broad daylight by a wraith-like being--an impossibility with dangerous implications for everyone on earth. Because if the light is no longer enough to protect them, nowhere is safe...
