Designed to enhance readers' comprehension and appreciation of the traditions, influences, and common themes underlying the many differences within this complex region, this volume ranges in coverage from history to economics and politics, from the environment to ethnicity, from religion to the Caribbean diaspora.

This text focuses on the contemporary economic, social, geographical, environmental and political realities of the Caribbean region. Historical aspects of the Caribbean, such as slavery, the plantation system and plantocracy are explored in order to explain the contemporary nature of, and challenges faced by, the Caribbean. The book is divided into three parts, dealing respectively with: the foundations of the Caribbean, rural and urban bases of the contemporary Caribbean, and global restructuring and the Caribbean: industry, tourism and politics.

The Caribbean ranks among the earliest and most completely globalized regions in the world. From the first moment Europeans set foot on the islands to the present, products, people, and ideas have made their way back and forth between the region and other parts of the globe with unequal but inexorable force. An inventory of some of these unprecedented multidirectional exchanges, this volume provides a measure of, as well as a model for, new scholarship on globalization in the region. Ten essays by leading scholars in the field of Caribbean studies identify and illuminate important social and cultural aspects of the region as it seeks to maintain its own identity against the unrelenting pressures of globalization. These essays examine cultural phenomena in their creolized forms--from sports and religion to music and drink--as well as the Caribbean manifestations of more universal trends--from racial inequality and feminist activism to indebtedness and economic uncertainty. Throughout, the volume points to the contending forces of homogeneity and differentiation that define globalization and highlights the growing agency of the Caribbean peoples in the modern world. The Caribbean has been traditionally associated with externally devised mappings and categories, thus appearing as a passive entity to be consumed and categorized. Challenging these forces and representations, Carlos Garrido Castellano argues that something more must be added to the discussion in order to address contemporary Caribbean visual creativity. Beyond Representation in Contemporary Caribbean Art arises from several years of field research and curatorial activity in museums, universities, and cultural institutions of Jamaica, Trinidad, Martinique, Guadeloupe, Cuba, Dominican Republic, Puerto Rico, and the United States. This book explores the ways in which Caribbean individuals and communities have recurred to art and visual creativity to create and sustain public spaces of discussion and social interaction. The book analyzes contemporary Caribbean art in relation to broader discussions of citizenship, cultural agency, critical geography, migration, and social justice. Covering a broad range of artistic projects, including curatorial practice, socially engaged art, institutional politics, public art, and performance, this book is about the imaginative ways in which Caribbean subjects and communities rearrange the sociocultural framework(s) they inhabit and share.

When Americans seek an escape from the worries and dilemmas of everyday life, the crystal blue waters and white sands of the Caribbean islands seem like the answer to a prayer. Yet this image of a tourist's paradise hides a tumultuous history marked by strife and division over race, political power, and economic inequality. Olwyn Blouet explores the story of "the Caribbean" over the last 50 years, revealing it to be a region positioned at the heart of some the most prominent geopolitical issues of modern times. Navigating a rich mélange of cultures and histories, Blouet unearths a complex narrative that is frequently overlooked in histories of the Americas. In stark contrast to widely-read guidebooks, this chronicle unflinchingly probes two strikingly different worlds in the Caribbean islands--those of the haves and the have-nots--created by the volatile mixture of colonial politics, racial segregation, and economic upheaval. The strategic political relations between Caribbean nations, Cuba in particular, and the world powers during the Cold War; the economic transformations instigated by tourism; and the modernizing efforts of Caribbean nations in order to meet the demands of a globalizing twenty-first century market are among the numerous issues explored by Blouet in her efforts to redress the historical record's imbalance. The Contemporary Caribbean also explores the proud histories of the region's many nations in sports such as cricket and baseball, as well as their famed cuisines, and the uneasy balance today between local traditions and the vestiges of colonial influence.

Contemporary Caribbean Writing and Deleuze maps a new intellectual and literary history of postcolonial Caribbean writing and thought spanning from the 1930s surrealist movement to the present, crossing the region's language blocs, and focused on the interconnected principles of creativity and commemoration. Exploring the work of René Ménil, Édouard Glissant, Wilson Harris, Derek Walcott, Antonio Benitez-Rojo, Pauline Melville, Robert Antoni and Nalo Hopkinson, this study reveals the explicit and implicit engagement with Deleuzian thought at work in contemporary Caribbean writing.UNITING for the first time two major schools of contemporary thought - postcolonialism and post-continental philosophy - this study establishes a new and innovative critical discourse for Caribbean studies and postcolonial theory beyond the oppositional dialectic of colonizer and colonized. Drawing from Deleuze's writings on Bergson, Nietzsche and Spinoza, this study interrogates the postcolonial tropes of newness, becoming, relationality and a philosophical concept of immanence that lie at the heart of a little-observed dialogue between contemporary Caribbean writers and Deleuze.

Contemporary Caribbean Women's Poetry provides detailed readings of individual poems by women poets whose work has not yet received the sustained critical attention it deserves. These readings are contextualized both within Caribbean cultural debates and postcolonial and feminist critical discourses in a lively and engaged way; revisiting nationalist debates as well as topical issues about the performance of gendered and raced identities within poetic discourse. Newly available in paperback, this book is groundbreaking reading for all those interested in postcolonialism, Gender Studies, Caribbean Studies and contemporary poetry.
