The AHFE Industrial Cognitive Ergonomics and Engineering Psychology (ICEEP) conference examines the cognitive ergonomic aspects of a workplace to understand a working task and solve a problem, thus making human-system interaction compatible with human cognitive abilities and limitations at work.

11th AHFE International Conference 2020

Introspection is the examination of one's own conscious thoughts and feelings. In psychology, the process of introspection relies exclusively on observation of one's mental state, while in a spiritual context it may refer to the examination of one's soul.Introspection is closely related to human self-reflection and self-discovery and is contrasted with external observation.
