Objects communicate the presence and identity of those who use them. Knives, hooks, bowls, and cups served as badges of identity among the Anglo-Saxons, just as objects today are one way we show others how we see ourselves. Many people who worked with food are identified in Old English sources, including the beekeeper, the cheesemaker, and others.

Food, Eating and Identity in Early Medieval England on JSTOR
There is an intimate relationship between food and identity but processes of identity formation through food are far from clear. This book adds a new perspective to the existing body of scholarship by addressing pivotal questions: is food central or marginal to identity construction? Does food equally matter for all group(ing)s?
