**Telephone Rj11 6p4c To Rj45 8p8c Connector Plug Cable**

Cables sold as RJ11 often actually use 6P4C connectors (six positions, four contacts) and RJ14 wiring – four wires running to a central junction box. Two of its six possible contact positions connect tip and ring , and the other two contact positions may be unused or provide low-voltage power for night-light or other features on the telephone set.
