Yet math apps and websites that focus on speed and rote memorization are readily available and widely used. This use of technology can promote fear and stress, and it also sends inaccurate messages about the purpose of mathematics. Math is about thinking deeply, discovering patterns, and making connections.

### **Effective Technology Use in Math Class | Edutopia**

Abstract. This chapter sounds the alarm for top leaders to understand the importance of maintenance as key to total operations success. If your current maintenance strategy, leadership philosophies, and planning and scheduling processes do not allow you to manage maintenance like a profitable internal business, you could be in trouble or heading toward serious trouble.
