As other reviewers have stated, this book and Van Valkenburg's book "Network Analysis" are 2 of the best books out there, on a curious note: it is interesting that Franklin F. Kuo was Van Valkenburg's PHD student, and both ended up writing some of the best books in the EE field. Kuo is more recognized in the control theory field whilst Van Valkenburg has more material on electrical networks and filters, however with this book in particular I would say that the student surpassed the teacher ...
