community for more than 20 years. The style guide features updated direction and new guidance for subjects that weren't around when the last edition released.

Welcome - Microsoft Style Guide | Microsoft Docs

Style Guides ¶. Style Guides. ¶. A style guide contains a set of standards for writing and designing content. It helps maintain a consistent style, voice, and tone across your documentation, whether you're a lone writer or part of a huge docs team. It can provide guidelines for different documentation deliverables, such as API reference manuals, tutorials, release notes, or overviews of complex technical concepts.

Style Guides — Write the Docs

The UX style guide is a document that includes the design patterns for the future product. It also describes all possible UI elements and content types used, defining the rules of how they should be arranged and work with each other. But, unlike a UI style guide, UX designers don't describe the actual look of the interface.
