The International Trade Administration's Top Markets Series is meant to help exporters determine their next export market by comparing opportunities across borders. Each report ranks future export opportunities within a particular industry based on a sector-specific methodology. The reports provide a detailed assessment of the competitiveness landscape within a sector, as well as the ...

Top Markets | International Trade Administration

The optimal time to trade the forex (foreign exchange) market is when it's at its most active levels—that's when trading spreads (the differences between bid prices and the ask prices) tend to narrow. In these situations, less money goes to the market makers facilitating currency trades, leaving more money for the traders to pocket personally.
